FOR THE CHAMBER

The Chamber of certified architects and certified engineers of Republic of Macedonia (KOAI) unites all the engineering professions in Republic of Macedonia and is the only authorized institution issuing certificated of engineers and architects in terms of their professional competence. KOAI also recognizes foreign engineering certificates of foreign engineers working in Republic of Macedonia.

The Chamber has over 7000 members, out of which around 3000 actively use their professional certificates.

Governing bodies of the Chamber are: Chamber Assembly, Managing Board, Supervisory Board, President of the Chamber who is also the Chairman of the Managing Board and Secretary General in charge of the services of the Chamber.

The Chamber is member of the European Council of Engineering Chambers (ECEC), the World Federation of Engineering Organizations (WFEO) and the Engineering Initiative for Regional Cooperation (IIRS).

The Chamber plays an active role in the continued professional development of the architects and engineers in the country. In addition, the Chamber supports numerous engineering symposiums, conferences and other professional events organized by other engineering associations in Republic of Macedonia. Chamber annually awards the best engineering students with engineering ring under the auspices of the President of Republic of Macedonia.

PROFESSIONAL DEPARTMENTS

The Chamber has 12 professional departments for each engineering profession, shown below in sequence according to the prefix of the issued certificates:

- Department of urbanists and planners
- Department of Architects
- Department of Civil engineers
- Department of Mechanical engineers
- Department of Electrical engineers
- Department of Traffic engineers
- Department of engineers of geology and geotechnics
- Department of Environmental engineers
- Department of Geodetic engineers
- Department of engineers in occupational safety and fire protection
- Department of technologists and metallurgists
- Department for Energy Efficiency and
- Commission for recognition of foreign engineering certificates

VISION

Positioning the Chamber as a deciding factor in the development of the engineering profession in Republic of Macedonia, strengthening the role of the engineers in society, and positioning the Chamber as equitable and relevant member of the international engineering community.

SERVICES

- Continuous professional development of its members through various CPD seminars
- Issuing professional engineering certificates for domestic and foreign engineers and architects
- Publishing the professional magazine 'Presing'
- Formal recognition of foreign design specs
- Supporting other engineering associations in Republic of Macedonia
- Organization of trainings, seminars, conferences and other professional engineering events.

MISSION

The Chamber should use its influence and authority, and through cooperation with relevant institutions to facilitate improvement of the conditions for engineering work. The Chamber should facilitate improvement of specific laws and bylaws in the interest of all certified architects and engineers in Republic of Macedonia.
